

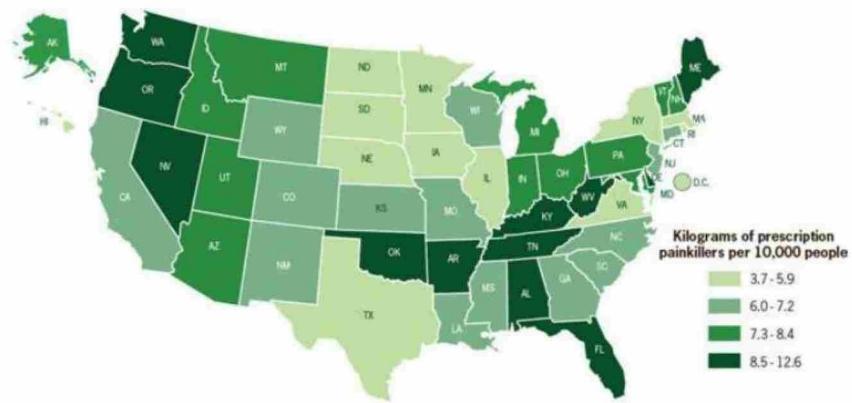

EXHIBIT 9

DEA Geographic Variables for Customer Peer Groups

I. Current trends of drug diversions

- Southern Florida is the site where most drugs originate (Pill Mills/Rogue Pain Clinics)
 - Drugs purchased in Florida spread to the Southeast and Appalachia/Midwest regions
 - Most drug ‘customers’ travel to Florida from Ohio, Pennsylvania, Kentucky, and West Virginia
 - As regulations tighten in Florida, pill mills are moving North to Georgia, Kentucky, Tennessee, Ohio and West Virginia

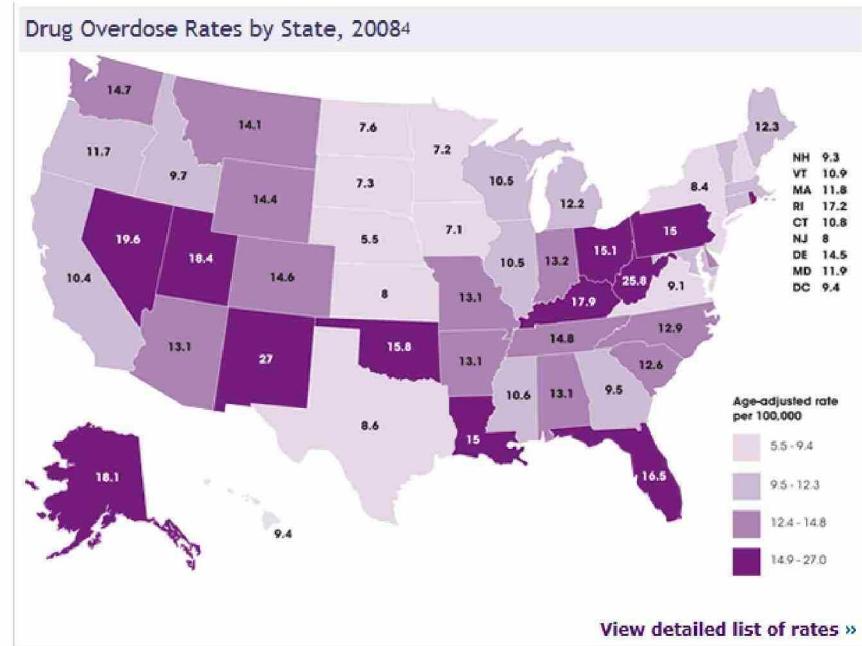

ARCOS Per Capita Distribution

II. DEA breaks down Diversion Field Offices into 20 divisions (21 including Caribbean)

- Greater number of investigators in areas of more drug abuse
- Divisions have common values of ARCOS per capita distribution
- Divisions have common number of deaths per overdose

Michigan, Ohio, Kentucky

Chicago Division
Illinois, Indiana, Minnesota, Wisconsin

El Paso Division
Western Texas, New Mexico

Houston Division
Central & Southern Texas

Los Angeles Division
Central California, Hawaii, Nevada

Miami Division
Florida

New England Division
Massachusetts, Connecticut, New Hampshire, Rhode Island, Vermont

New Jersey Division
New Jersey

New Orleans Division
Louisiana, Alabama, Arkansas, Mississippi

New York Division
New York

Philadelphia Division
Pennsylvania

Phoenix Division
Arizona

St. Louis Division
Missouri, Iowa, Kansas

San Diego Division
California (San Diego & Imperial Counties)

San Francisco Division
Northern California

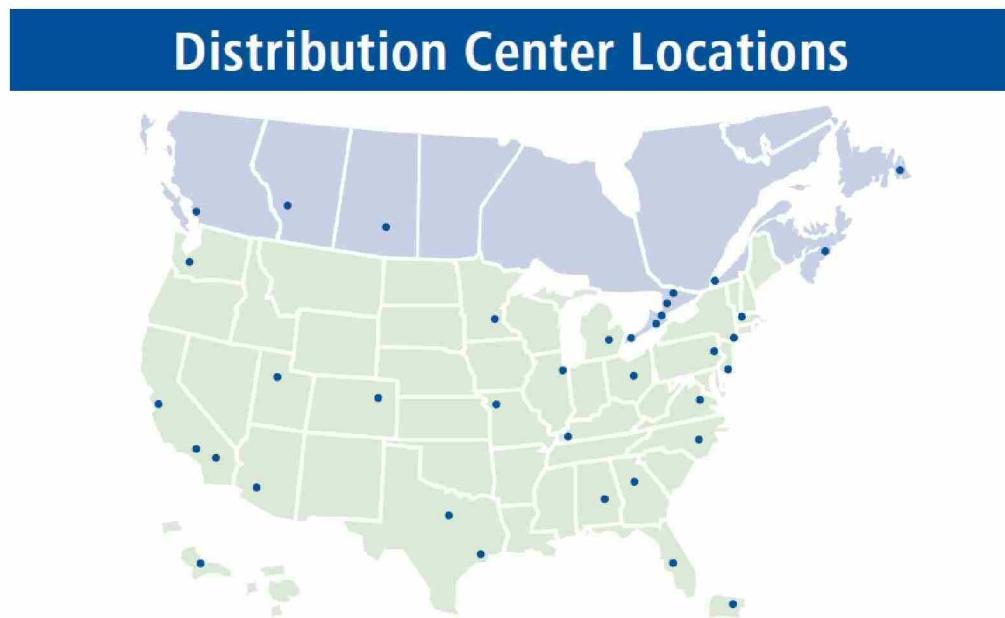

Seattle Division
Washington, Alaska, Idaho, Oregon

Washington Division
Washington DC, Maryland, West Virginia, Virginia

Caribbean Division
Caribbean

III. Amerisource distribution center map

- Doesn't represent the distribution of diverted drugs

(Source: Amerisourceberkendrug.com)

IV. Positive correlation between drug abuse and the population that is non-Hispanic, white or African American, poor, uninsured and living in urban areas

- Similar demographics in zip codes?
